## Effectiveness of its existence, role, and presence

*"And whatever good you do, Allah is all-aware of it."*

**Al-Mabarrat Charity Association** has proven its unceasing efficient presence in facing challenges and hardships ever since its inception 34 years ago. The continuous efforts led to overcome adversities of the Civil War in 1975, the Israeli attacks in the 1990s, and the Israeli war in July 2006 when eight of its institutions were demolished. However, Al-Mabarrat was able to recover and regain utmost strength and pride to start the scholastic year overcoming all defeats.

It also overcame the absence of its inspiring founder, his eminence the religious authority Sayyid Fadlullah in 2010, and faced the emerging pandemic as an unprecedented health crisis. In addition, it mobilized personnel and resources to cope with the socio-economic crises and the aftermath of Beirut Port explosion which resulted in numerous victims and everlasting tragedies.

We are living in a situation which is critical, ambiguous, and exposed for many dangers. Nevertheless, these conditions did not stop Al-Mabarrat Association to prevail because of the faith and confidence in the staff, their concerted efforts and patience, alongside the contributions of the generous, compassionate, and philanthropic people.

Each crisis boosted the immunity of our association; such immunity is mainly gained through our will and determination to continue our journey. We find that positive thinking is a vital strategy we practice by accumulating day-to-day experiences, learning, training, continuous evaluations, alongside the faithful souls that are connected to Allah deriving mindful patience, and Allah is with those who are patient.
