

For the Good of Man and Life

At the threshold of Al- Mabarrat's **40th's anniversary**, we celebrate this significant occasion by extending due gratitude and appreciation to the founder, his Eminence, the grand ayatollah al-sayed Muhammad Hussein fadlallah (ra) as token of our thankfulness for the legacy he left; one that is a product of long and hard journey of philanthropy and good deeds till the end of his blessed days.

Al-Mabarrat immensely thanks the philanthropists, who dedicate themselves for the sake of giving and are devoted to serving Man and humanity. They are those who believe that building the nation and fortifying its social security is a common responsibility and duty.

During these **40 years** of commitment, responsibility, success and accomplishment, Al-Mabarrat has built orphanages and institutions, supported the marginalized and needy, educated numerous generations implementing the most updated curricula, integrated the special needs, and enabled the elderly to continue to have a positive role in society.

Forty years of innovation, development and improvement in various domains. Through its growth journey, Al-Mabarrat has been responsive to the changes and development that have been occurring; hence, it has embraced the most updated curricula, practices, and policies in order to better serve the individuals, communities and mainly humanity.

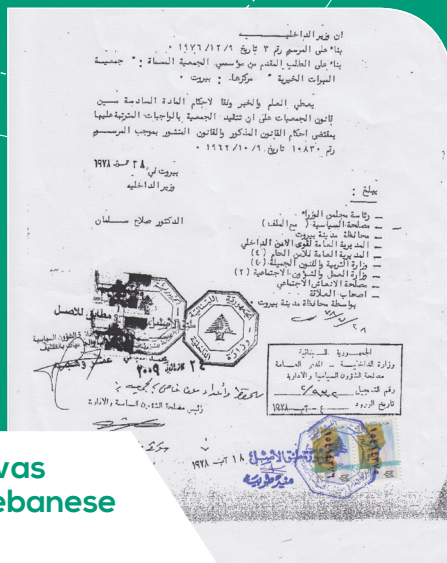

Today, Al-Mabarrat institutions are active throughout the country, and they play an important role and contribute to the educational, social and economic development; in addition to combating and eradicating poverty. Embracing the Founder's vision and doctrine whose pillars are faithfulness, openness, and mindfulness, Al-Mabarrat has lived many success stories and recorded great achievements.

Here, we present this book that illustrates the most significant accomplishments in the history of Al-Mabarrat highlighting on the applied services, programs, and projects in its institutions. On Al-Mabarrat's **40th anniversary**, we pledge to sustain and maintain this thought and these practices that contribute to the development of MAN and HUMANITY.
